

MEASURING IN A TEAM

When measuring in a team it would be Lead in Pairs, second in Triples, third in fours.

In the game if you cannot agree on how many shots you are awarded, it would be the one who disagrees that would measure starting from their own bowl. If needed put wedges in place on bowls being measured.

All other team members MOVE AWAY to give them space.

DO NOT move bowls from head until the score has been agreed.

If those measuring cannot agree score they then as the SKIPS of both teams as they have the Ultimate Decision.

Appropriate measures should be used.

If measure cannot be done by one person the other Lead, second and third should help.
